Hi guys,

I want to chat with you guys (can be just one) about our NDOW efforts and reporting up the chain. I'd like to have Todd Peterson call-in to your daily telcon (we're discussing "best" method to brief ESF-10 info). I fully intend to shine a bright light on this system/process.

If LA is impacted, I'm hopeful they will be ready to effectively use also.

Pls let me know your availability.

V/r,
